Education

Bachelor of Science, Computer Science 2022 – 2026
Jaypee Institute of Information Technology *Noida, Uttar Pradesh*

Experience

Engineering Intern Sep 2024 – Apr 2025
Intervue.io *Remote*

- Identified **inconsistent scoring patterns** in technical interviews and redesigned rubric sections to **create clearer** and more **fair assessments.**
- Structured **20 rubrics across 5 engineering domains** to reduce ambiguity for reviewers and support **clearer decision making**.

Product Growth Intern May 2024 – Jul 2024
SkillArena *Noida, Uttar Pradesh*

- Led campus acquisition across **30 colleges**, bringing in **4,000 new users** and supporting activation experiments that contributed to **101% MoM** growth.
- Solved scattered communication by creating a single outreach tracker with reusable templates, which reduced manual searching and improved response time during campus coordination.

Product Management Intern Jun 2023 – Aug 2023
Instaprep AI *Remote*

- Analyzed learning behaviour data to identify friction in the practice journey and uncover early **drop off patterns**.
- Proposed UX changes that simplified the practice flow and **increased session completion** for new learners.

Leadership

Founder and Lead 2020 – Present
Nodebrew *Delhi, India*

- Built a global tech community from **0 to 10,000+ members** across **36 countries** by defining programs, growth channels and long-term strategy.
- **Led a 35-member** cross-functional team to run **3 hackathons, 5 mentorship cohorts and 20+ bootcamps**.
- Formed partnerships with 19 sponsors including **Jane Street, Balsamiq and Linode**, securing **$30,000 in sponsorship** to support community initiatives.

Projects

AIRA | Vite, FastAPI, Python, CNN Models, JWT Auth, Google OAuth

- Defined the product flow for how users upload **respiratory audio**, receive **AI analysis** and navigate results, solving confusion around steps and interpretation.
- Scoped and shipped the first usable version of the tool by coordinating the **audio upload pipeline, model output handling** and clear result presentation.

Campus Navigator | JavaScript, Leaflet, OpenStreetMap, A* Pathfinding

- Solved **navigation problems on large campuses** by designing a tool that provides **clearer multi stop route guidance** for first-time users.
- Refined interactions based on student testing and documented the design decisions in a paper **published at IEEE**.

Skills

- **Product:** User Journey Mapping, Feature Scoping, A/B Testing, GTM Strategy, User Research
- **Data:** SQL, Python, Tableau, Power BI
- **Technical:** FastAPI, JavaScript, Python, APIs, React
- **Tools:** Figma, Postman, Git, Mixpanel, Google Analytics, Streamlit.
